Dear Valued Customer,

QuickLogic has been advised by our assembly manufacturer Amkor Technology, they will EOL their SnPb Plating line on LQFP, PQFP and VQFP package families; Consequently, QuickLogic will discontinue the manufacturing of the products listed below.

The QuickLogic replacement product is with Matte Sn Plating (Lead Free) and all products on the below list are available in Lead Free. Quicklogic has qualified, manufactured and shipped to our existing customers Matte Sn Plating (Lead Free) products for many years. Qualification data is available upon request.

We understand the difficulty this discontinuation can present, and QuickLogic is making all reasonable attempts to secure outstanding materials to serve our customer's needs. The following is the timetable of our discontinuation:

Last date to place orders: June 30th, 2018

Last date for shipping orders: December 28th, 2018

We ask that every effort be made to place last-time buy orders in a timely manner, as product may have limited availability. Orders will be supported on a "first-come, first-serve" basis. While placing orders is not a guarantee of delivery, priority will be given to the earliest-received orders. QuickLogic reserves the right to refuse orders if supply constraints prevent us from fulfilling the orders, and all orders must be placed as "NCNR" (non-cancelable, non-returnable).

QuickLogic also reserves the right to increase pricing on new orders as lower overall production volumes lead to increased costs. Orders placed earlier will receive the most favorable pricing.

Thank you for your attention to this matter. No response to this notification is required. Please do not hesitate to contact your QuickLogic representative or distributor, if you have any questions. Your continued interest in QuickLogic is greatly appreciated.

Sincerely,

QuickLogic Corporation
